

## DECLARATION

Referred to copper solder fittings belonging to Serie **G-Size**

### FRA.BO SPA

Via Cadorna 30 25027 Quinzano D'Oglio (BS) - ITALY

## DECLARES

that the solder copper fittings **G-Size** series complying with EN 1254- 1 and are suitable at pressures and temperatures indicated in the table below when you consider a safety factor of 3 in reference to the bursting pressure:

Nominal Diameters [mm]	Working temperatures and pressures		
	-40°C / 30°C	+95 °C	+150 °C
22	80	67	60
28	67	53	49
35	67	53	49
42	53	47	40
54	47	40	35
64	42	37	32
67	40	35	29
76,1	32	27	22
88,9	25	21	17
108	20	17	13

Other values of temperature and working pressure can be derived by interpolation.

The above performances require that fittings are installed by brazing according to the best practice of installation.
