

APPROVED INSTALLATION TOOLS

APPROVED INSTALLATION TOOLS

SANITARY AND HEATING INSTALLATIONS

These specifications define the pressing tools approved by FRABO for **sanitary and heating installations** for the following press systems:

- FRABOPRESS SECURFRABO
- FRABOPRESS H2O SECURFRABO
- FRABO SOLARPRESS
- FRABOPRESS 316 SECURFRABO
- FRABOPRESS C-STEEL SECURFRABO
- FRABO CHROMEPPRESS

Dimensions	Manufacturer	Pressing tool	Jaws/Chains
12-35 mm	Novopress	AFP101 AC0102/ AC0103	PB1 jaws V profile: 12-35 mm
12-54 mm		ECO201/202/203 AC01 Pressboy AC03 Pressmax AC0201/AC0202/203 AC0202XL / AC0203XL EFP2 EFP201/202 AFP201/202	PB2 ECOTEC jaws V profile: 12-35 mm Frabo chains 42 and 54 mm (with ZB201/ZB203 adaptor) "Snap on" chains Frabo 42 and 54 mm (with ZB201/ ZB203 adaptor)
42-54 mm		ECO301 ECO3 Pressmax	Frabo chains 42 and 54 mm (with ZB302/ZB303 adaptor) "Snap on" chains Frabo 42 and 54 mm (with ZB303 adaptor)
12-28 mm	Rothenberger	Romax Compact	Romax Compact jaws: 12-35 mm
12-35 mm		Romax Compact TT	
12-54 mm		Romax Pressliner Romax Pressliner ECO Romax AC Eco Romax 3000/Romax 4000	Rothenberger jaws: SV 12-54 mm "Snap on" chains SV42 and SV54 mm (with ZBS1 adap- tor)
12-35 mm	Klauke	Mini MAP2L Klauke Mini	Klauke mini jaws 12-35 mm (KSP4) or 35 mm jaw (KSP4)
12-54 mm		UAP2 UNP2 UP75 UAP3L UAP4 UAP4L	Klauke jaws: 12-35 (KSP4) and 42-54 chains (KSP4) with SBK4254 adaptor

12-54 mm	Viega	Typ2 Typ3 PT3AH Akku Press - Handy	Viega PT2 jaws: 12-54 mm

RECIPROCAL COMPATIBILITY OF TOOLS PRODUCED BY DIFFERENT MANUFACTURERS

It is known that different press manufacturers have standardised the chuck head so that it is also compatible with jaws made by other manufacturers.

Despite this situation FRABO S.p.A. strongly advises against using machines and jaws made by different companies unless a specific technical compatibility declaration is provided for the tools drawn up by the manufacturer.

MAINTENANCE OF PRESSING TOOLS

The pressing tools and jaws/chains are subject to wear due to use, therefore regular maintenance must be carried out according to the intervals established by the manufacturer. In this way, the best installation conditions of the fittings can be guaranteed and danger of sudden breaking can be avoided, which could be dangerous for the user.

It is good practice to periodically check that the jaws/chains are not damaged or worn. In that case the jaws/chains must not be used any longer and must be sent to an authorised service centre by the tool manufacturer for the relevant checks.
