

## **“Frabopress Securfrabo: adapted for every situation”: the new video is on line!**

Proud of being Italian, Frabo always wants to distinguish itself with really original and emotional videos.

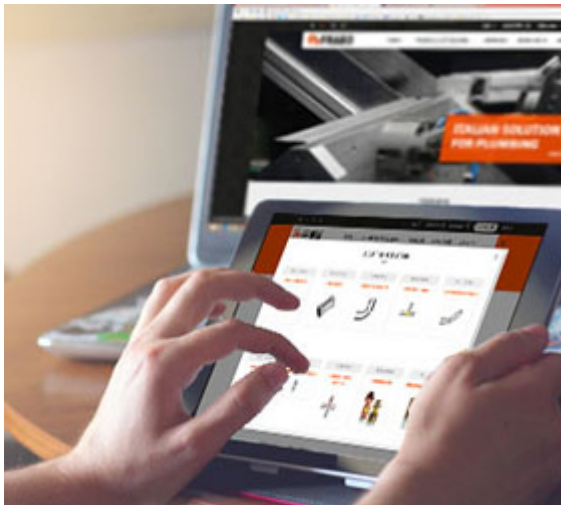

It is a bit “particular” chameleon, in fact, the main character of its latest video, which is about the presentation of the innovative and exclusive Frabopress Securfrabo press fitting system. The chameleon has a distinctive characteristic: he can adapt in every occasion just as Frabopress Securfrabo press fittings can do. They can be used both for water and gas installations indistinctly. One fitting for the best reliability thanks to Frabo patented system, with the specific O-Ring that shows the water leakage when the fitting has not been pressed.
